MEMORANDUM FOR: Chief, SR Division

SUBJECT : Latvian Operations

1. On the night of 6 and 7 May, one agent was successfully infiltrated by air into the Latvian SSR. The primary objective of this mission was to effect contact with a previously infiltrated agent (who was infiltrated in the fall of 1952), resupply him with additional funds and materiel, solidify the operational assets created by that agent, and exfiltrate with him in the fall of 1954.

2. During the last week we received S/W letters from both of these agents reporting the fact that the rendezvous between them was conducted successfully. All indications are that both agents are free from RIS control. In accordance with the briefing given to the agent recently infiltrated, he, with the aid of the previously infiltrated agent, will concentrate on recruiting a legally-residing principal agent and training him in proper communications with us.

3. The agent recently infiltrated took with him a complete W/T station which he has successfully buried and reported the exact burial place to us. He also established two caches containing substantial sums of rubles to be used in further operational support at our discretion.
